## CBS ArcSafe® Introduces RSS-3 DHP/DVP (S) For Westinghouse Type DHP/DVP

Denton, Texas, February 25, 2016 – [CBS ArcSafe®](http://CBSArcSafe.com), a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces its single-application remote racking system (RSS-3) for Westinghouse Type DHP/DVP circuit breakers. The lightweight, portable CBS ArcSafe RSS-3 DHP/DVP (S) allows technicians to remotely install and remove the circuit breaker from a safe distance of up to 300 feet while remaining stationed outside the arc-flash boundary.

Installation and operation do not require any modifications to the existing electrical equipment thanks to CBS ArcSafe's magnetic latching system. The RSS-3 DHP/DVP (S) is compatible with Type DHP/DVP circuit breakers with ratings of 1200-2000 A, including 50DHP75, 50DHP250, and 50DHP350. Typical applications of the DHP/DVP circuit breaker include electric utility systems, industrial plants, commercial buildings, municipal pumping stations, transportation systems, pipeline stations, and unit substations. When compared to other arc-flash mitigation alternatives, The RSS-3 DHP/DVP (S) is a cost-effective solution for keeping operators safe.

Optional features include 25-foot extension cables, 24 V DC LED light, wireless video camera system with LCD monitor, and rugged protective case assembly. All RSS-3 units are portable, fast and easy to set up, offer mechanical and/or electrical safety protection, are adjustable to fit unique electrical equipment configurations, reduce the requirements for personal protection equipment (PPE), and help customers with NFPA 70E arc-flash safety compliance.

All CBS ArcSafe products are manufactured in the U.S. at our manufacturing facility in Denton, Texas. For more information, visit [CBSArcSafe.com](http://CBSArcSafe.com) or call 877-4-SAFETY.

#### About CBS ArcSafe®

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear that do not require modification to existing equipment for operation and allow technicians to operate equipment from a safe distance of up to 300 feet. All our equipment is manufactured in the U.S. at our Denton, Texas, manufacturing facility. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at [CBSArcSafe.com](http://CBSArcSafe.com), or call toll-free at 877-4-SAFETY.
