CBS ArcSafe® Introduces RSA-57T for Square D N-Frame MCCB

Denton, Texas, October 4, 2016 - [CBS ArcSafe®](http://CBSArcSafe.com), a leading manufacturer of remote racking and switching solutions for low- and medium-voltage switchgear, introduces its remote switch actuator (RSA) for the Square D N-Frame molded case circuit breaker (MCCB). The lightweight, portable CBS ArcSafe RSA-57T allows technicians to remotely close or trip the MCCB from a safe distance of up to 300 feet while remaining stationed outside the arc-flash boundary.

Installation and operation do not require any modifications to the existing electrical equipment, thanks to CBS ArcSafe's magnetic latching system. The RSA-57T is compatible with flush-mounted N-Frame breakers with ratings of 600-1200 A, with or without factory lockouts, including NE and NX frames. Typical applications include switching and protection of squirrel-cage, wound-rotor, and synchronous motors. The RSA-57T is a cost-effective solution for keeping operators safe when compared to other arc-flash mitigation alternatives.

Optional features include radio remote with range of up to 300 feet, 24 V DC LED light, wireless video camera system with LCD monitor, and rugged protective case assembly. All RSA units are portable, fast, and easy to set up, offer mechanical and/or electrical safety protection, are adjustable to fit unique electrical equipment configurations, reduce the requirements for personal protection equipment, and help customers with NFPA 70E arc-flash safety compliance.

All CBS ArcSafe products are manufactured in the United States at our manufacturing facility in Denton, Texas. For more information, visit CBSArcSafe.com or call 877-4-SAFETY.

About CBS ArcSafe®

CBS ArcSafe offers the electrical industry's largest inventory of remote racking and switching solutions for low- and medium-voltage switchgear that do not require modification to existing equipment for operation and allow technicians to operate equipment from a safe distance of up to 300 feet. All our equipment is manufactured in the United State at our Denton, Texas, manufacturing facility. CBS ArcSafe offers 24/7/365 emergency support and is happy to develop custom remote racking and switching solutions for customers. Learn more at CBSArcSafe.com, or call toll-free at 877-4-SAFETY.
